<u>Annual Asset-Based Lending Report Highlights</u>	<u>2</u>

Introduction

The Secured Finance Network's Annual Asset-Based Industry reports are designed to provide lenders year-end 'snapshots' of their respective industries that can be used to benchmark performance.

Thirty-four SFNet members engaged in asset-based lending participated in this year's surveys. Members who participated in the surveys received more detailed reports mapping additional facets of their industry. If you are a member and are interested in participating, please contact Aydan Savaser at asavaser@SFNet.com. If you are not a member, please contact James Kravitz at jkravitz@SFNet.com to learn about the many benefits of membership.

The makeup of the lenders providing data for this report changes from year to year. Participating members also have the ability to revise their previously reported data. As such, the data presented in this report reflects only organizations who responded during the current data collection cycle and 2018 values reported in this report may not be consistent with the previous year's reports.

If you have any questions about the data contained in this report, or if you have suggestions on how we can improve the report in future years, please contact the Westat analysis team at CFADataInitiative@westat.com or 1-855-887-3820.
