

SFNet Guest Lecture Program

CREATED IN CONJUNCTION
WITH SFNET'S DIVERSITY, EQUITY
AND INCLUSION COMMITTEE

WWW.SFNET.COM

 **Secured Finance
Network**

The Guest Lecture Program is a free resource for the next generation of bankers, lenders and financiers. It has been developed by the Secured Finance Foundation as part of its mission to encourage, facilitate and support education, innovation and charitable works for the betterment of organizations and professionals who deliver and enable secured finance. The Secured Finance Foundation is a 501(c)(3) affiliate of the Secured Finance Network (SFNet), an essential resource for all organizations and professionals who deliver and enable secured finance to businesses. SFNet brings together the people, data, knowledge, tools and insights that put capital to work.

Below are a select sample of SFNet's 276 members:

BANK OF AMERICA 

citibank

JPMorganChase 

**WELLS
FARGO**

What is a Guest Lecture? The Guest Lecture Program was created in conjunction with SFNet's Diversity, Equity and Inclusion Committee and with the support of the Secured Finance Foundation to introduce asset-based lending (ABL), factoring and other secured lending disciplines to students, as a way to educate and encourage younger and more diverse talent in the secured finance industry.

In support of this lecture series, SFNet connects our industry leaders to your undergraduate and graduate finance students to provide a high-level look at secured finance as an industry and a career path.

Why should your university host a Guest Lecture? Not only will our lecturers provide a high-level overview of the secured finance industry, but students in attendance will receive exclusive access to our internship database as well as scholarship and networking opportunities.

Which majors can benefit from attending a Guest Lecture?

- Banking - Supply Chain Finance - Finance - Tech Finance

Are scholarships available? One of the reported leading obstacles for students seeking internships is financial. In response, the Martin I. Katz Guest Lecture Scholarship Program has created a scholarship to help students bridge the gap and lessen monetary disenfranchisement.

What is the internship database? SFNet has a growing membership of 276 companies and works to continuously update our internship database with local, national and international internship opportunities sourced from our member network.

The database is open exclusively to students attending a Guest Lecture.

More information on the Martin I. Katz Guest Lecture Scholarship Program scholarship and our internship database is available online:

When and where? Guest Lectures are scheduled on a rolling basis, with scheduling determined by demand and lecturer availability. Email Jeff Walsh at jwalsh@sfnet.com to schedule a Guest Lecture today.

A woman with long brown hair, wearing a grey blazer, is speaking into a black microphone. She is smiling and looking towards the right. In the background, several other women are listening attentively. The setting appears to be a modern building with large windows and glass doors.
